

New Wason Center Annual Membership Opportunity

Beginning Fall of 2021, the Wason Center for Civic Leadership is offering new annual membership opportunities that provide insider access to our survey data, a new monthly newsletter featuring polling insights impacting politics and public policy, and invitations to our new Civic Leadership Forum events.

For over a decade, the Judy Ford Wason Center for Public Policy has been a trusted source of non-partisan and accurate survey research into the policy issues facing Virginia. Keeping student-driven survey research at our core, we have expanded our mission and launched new programs that will inspire, inform and ignite the next generation of civic leaders. For more information on our new programs, visit cnu.edu/wasoncenter.

When you become a member, you will be supporting the students who work in our survey lab and our efforts to build a value-driven community in which fact-based decision making, mutual respect and integrity prevail.
